

Brian Harrison
Winner

How does he do it?

For the fifth year running Brian Harrison of BH Building has won yet again the regional Marshall's award in the Best Driveway Transformation category. And if you think that's an incredible achievement, then you'll be amazed that he also won the top award for the Best Permeable Driveway too, a new award for driveways that prevent flooding. Not only that, but he also took the winning award for the Best Patio into the bargain. But it doesn't stop there, because Marshalls, the company who supply Brian's building materials and who stage the prestigious award ceremony have been so impressed by Brian's top of the range service that he's been proposed for the National Awards on 18th March. He's now in the final twenty installers chosen out of a massive 1,200 contractors that Marshall's have looked at throughout the land this year. So there you go, you don't have to look far to find the best driveway installer in the area because he's right here in Grantham, and that's official.
